

# Brailiant™ BI X

A redefined family of Brailiant refreshable Braille displays has arrived!

The NEW Brailiant BI X Series will help you stay connected, download books from many participating online libraries and share information easily with your peers. Enjoy the intuitive, seamless user experience of KeySoft Lite, the HumanWare flagship accessibility suite designed to make you more productive through its intuitive user interface and onboard smart applications including a Victor Reader Library. Get immersed in a native Braille environment with Brailiant BI 40X and Brailiant BI 20X refreshable braille displays!

## INTELLIGENCE, CONNECTIVITY, ENJOYMENT!

## Reveal 16*i*

Reveal your true potential. Reveal the world.

More than a simple digital magnifier, Reveal 16i is an intuitive and smart all-in-one-solution. Reveal 16i allows you to browse the internet, access books, take digital notes, view documents and objects at distance or even video chat! With its integrated optical character recognition (OCR) and text-to-speech (TTS) capabilities, Reveal 16i can read printed documents to you! Whether your students want to learn math, read or write assignments and share content, the Reveal 16i will help them reveal their true potential and participate fully in the classroom.
